DETAILED ACTION

Claim Objections

1. Claims 1-4 are objected to because of the following informalities: In claim 1, line 5, "missing" is incorrect. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Corneer (US Patent No. 6135084). This reference teaches an engine having a mixing chamber (14), the mixing chamber including an air injection valve (21) and a fuel injection valve (20) which are electrically controlled. The mixing chamber also includes an outwardly opening valve (22). See the abstract, col. 3, lines 1-10. and Figs. 1 and 3.
